1、修改文件 src/Adapter/Product/ProductDataProvider.php

找到方法名: public function getImage(\$id_image)

修改:

```
`'base_image_url' => _THEME_PROD_DIR_ . $imageData->getImgPath(),`
```

为:

'base_image_url' => '//' . \Configuration::get('ETCLOUDIMAGE_ACCOUNT_DOMAIN') . '/v7/' . \$imageData->getImgPath() . '.jpg?
w=98&h=98p=',

2、修改文件 src/Adapter/Image/ImageRetriever.php

找到方法名 public function getImage(\$object, \$id_image)

注释掉:

```
$resizedImagePath = implode(DIRECTORY_SEPARATOR, [
$imageFolderPath,

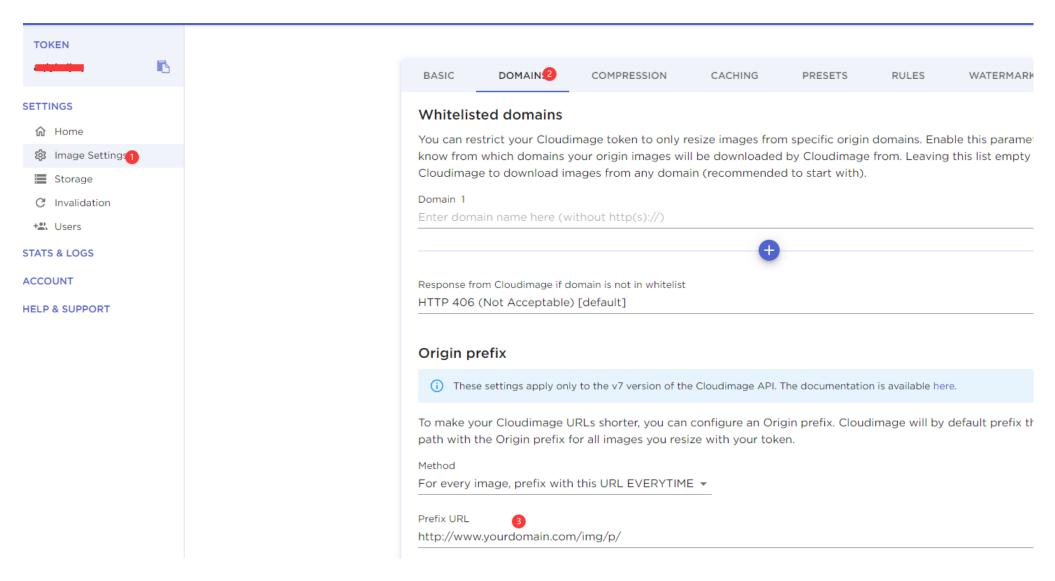

$id_image . '-' . $image_type['name'] . '.' . $ext,
```

Readmezh.md 2021/7/24

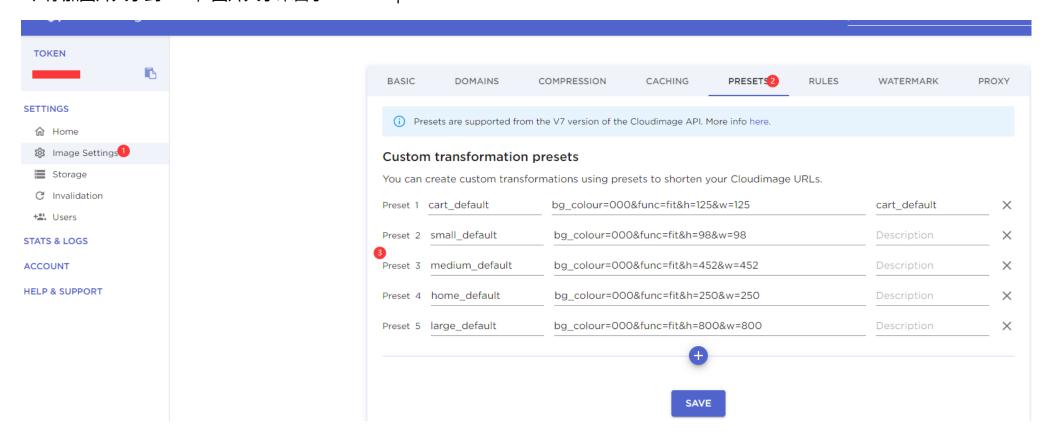

```
]);
if (!file_exists($resizedImagePath)) {
    ImageManager::resize(
    $mainImagePath,
    $resizedImagePath,
    (int) $image_type['width'],
    (int) $image_type['height']
    );
}
```

3、添加原始连接到CDN

Readmezh.md 2021/7/24

4、添加图片大小到CDN,图片大小来自于Prestashop

5、删除以前生成的小图片
